

FEDERAL EMERGENCY MANAGEMENT AGENCY

FEDERAL INSURANCE ADMINISTRATION

Proposed Flood Elevation Determinations for

Various Communities in Moore County, North Carolina

AGENCY: Federal Emergency Management Agency

ACTION: Proposed rule.

SUMMARY:

Technical information or comments are solicited on the proposed modified base (1% annual chance) flood elevations shown in the preliminary Flood Insurance Studies and Flood Insurance Rate Maps for the communities listed in the table below. The base flood elevations are the basis for the floodplain management measures that each community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES:

The period for comment will be ninety (90) days following the second publication of these proposed rules in a newspaper of local circulation.

Lessees and owners of real property in the following communities are encouraged to review the preliminary Flood Insurance Studies and Flood Insurance Rate Maps and to submit comments to the appropriate community representatives as listed below. Proposed base flood elevations along flood sources studied in detail are shown on the flood profiles in the study. The proposed modified base flood elevations are as follows:
